

Braden Sampson

Lower Sackville, NS B4C1B7 | (902)579-5601 | bradensampson5577@gmail.com

Objective

IT Web Programming student at NSCC seeking a junior web developer role where I can contribute hands-on experience in full-stack development, modern JavaScript frameworks, and cloud deployment to help build and maintain web applications.

Education

- NSCC - Institute of Technology Campus Sep 2024 — Present
IT Web Programming Halifax
Expected graduation: June 2026
Relevant coursework: Full stack development, Web design, Web hosting

Skills

- React
- Next.js
- HTML5
- CSS
- SQL
- MongoDB
- Express
- Node.js

Work History

- Production Technician, NEOCON INTERNATIONAL Sep 2022 — Aug 2024 |
Dartmouth
 - Operated machinery to ensure efficient production processes.
 - Conducted quality control inspections, maintaining high standards.
 - Collaborated with team to optimize workflow and reduce downtime.

Accomplishments

Designed and deployed a personal portfolio website using Node.js and Express, hosted on Vercel with a custom domain configured through Cloudflare including DNS management, proxy-based DDoS protection, and SSL/TLS configuration. bradensampson.dev

Collaborated with a Team to build a full-stack SaaS application in Next.js 16 with TypeScript and Supabase, implementing user authentication, role-based access control, an interactive Leaflet map for crowdsourced skate spot discovery, and a Stripe freemium subscription model with webhook-based access enforcement. Developed under an Agile workflow with GitHub Actions CI/CD, branch protection, and enforced commit standards.
